

Shubham Singh

ASSITANT ENGINEER

Lucknow, UP | 8853542481 | Shubham.singh@uppcl.org | [Github.com/shubhuppcl](https://github.com/shubhuppcl)

Objective

To continue contributing to UPPCL in a role that leverages my engineering skills, analytical mindset, and experience in power management to enhance operational performance and support strategic decision-making.

Experience

Power Management Cell, UPPCL | Assistant Engineer

2021-Present

- Developed automated Telegram Bot for Grid & Market data delivery, improving reporting efficiency. Scan the QR code to join the group.
- Created multiple **Python and Excel-based operational scripts** to support the daily bidding process in power exchanges.
- Improved **bid clearance ratio** and optimized **marginal cost vs. bidding price gaps** using analytical methods.
- Supported **real-time operational decision-making**, contributing to reduced system costs.

Electricity Distribution - Sitapur Town & Mahmudabad | Sub Divisional Officer

2016-2021

- Cleaned and standardized large volumes of **consumer and billing data**
- Conducted statistical tests for decision support

Education

Harcourt Butler Technological Institute, Kanpur | B.Tech - Electrical Engineering

2015

Technical Skills & Abilities

- Python (Pandas, NumPy, Scikit-learn)
- Data Cleaning and Data Preparation
- Forecasting Models
- MS Excel (Advanced Functions, Automation)
